

QTAKE HD Software Installation Instructions

1. Download and Install QtakeHD v575, using full installer (this will create the Qtake folder in the / Applications/ of your mac). The installer can be found by entering the following URLs into a web browser.

For QtakeHDx1: http://in2core.com/download/QtakeHDx1_v1.0.419_Install.dmg

For QtakeHDx2: http://in2core.com/download/QtakeHDx2_v1.0.575_Install.dmg

2. Run QtakeHD once, quit using the Q key.

3. Trash the QtakeHD. application which is located in /Applications/QtakeHD/ .

4. Download and Install latest version QtakeHD for your system by moving to the /Applications/QtakeHD/ folder. Run this application and quit using the Q key.

Latest Build at: <http://in2core.com/download>

Latest Beta at: <http://in2core.com/download/beta/>

TRIAL License:

You may run this program as a trial for 3 weeks.

Limitations:

Water mark on the video.

60 second record limit.

30 clip limit.

RENT TO OWN License registration:

Once your license has been paid for you will need to obtain the license.

1. Open the log folder located in: Applications>QtakeHD>Log.

2. Copy the log file (qtake_log.txt) and email it to Vlado : vlado@in2core.com

He will generate a license file in a zip container and attach it to a return email. (This process is generally very quick, but can take up to 24 hours):

3. Drag the unzipped license file (.lic) into /Applications/QtakeHD/License.

4. Start QtakeHD and check licensing to confirm. You can do this by going to the File Room in QtakeHD, then opening the Info tab and clicking License.

PAID IN FULL customers will receive a Dongle with separate Dongle registration instructions.
